Arsenal LED Lighting

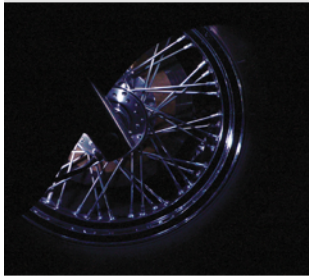

Accent Lighting & Accessories

Rumbling Pride's accent lighting and accessories are designed to compliment Stealth tube installations. Our 6-Shooterz provide additional installation options, while our cables offer ease of installation.

6-Shooterz

Designed to compliment the Stealth Tubes, our 6-Shooterz Accent Lights are the perfect size for tight spaces such as fenders, brake calipers and under triple-trees. 6-Shooterz are revolutionary in design and function, when in motion the LED's provide a spinning effect due to the layout and illumination sequencing.

6-Shooterz are the same diameter and depth as a stack of four nickels. The compact size combined with six, power-packed ultra bright LED's and our exclusive prismatic design, provide a brilliant glow in virtually limitless installation locations!
